

# Net Energy Metering (NEM) Subsidy Scheme

Go solar and get subsidised by Sarawak Energy for up to RM12,000 for your home.

Limited quota available until the end of 2026. Get support for your solar investment now.

| System Capacity | 2kWac to 3.5kWac | Above 3.5kWac to 6kWac | Above 6kWac to 50 kWac |
|-----------------|------------------|------------------------|------------------------|
| Subsidy Amount  | RM8,000          | RM10,000               | RM12,000               |

## What is the Net Energy Metering (NEM) Subsidy Scheme?

The NEM Subsidy Scheme is a one-time financial incentive to support sustainability and help homeowners reduce upfront installation costs.

## Who can apply for the subsidy?

Domestic customers with landed residential units can apply.

## Eligibility criteria

- Installations commissioned in 2025 and 2026
- Limited to once per customer only
- Subject to availability on a 'first come, first served' basis

## How to apply for the subsidy?

- Complete the NEM installation and sign the NEM contract by end of 2026
- Submit the NEM subsidy application form available at any of Sarawak Energy's Customer Service Counters or request for an online application form from our staff
